Dear Clerk,

Please bring this Advisory and Objections to the attention of
the Court.

Thank you for your time and consideration,

Sincerely

John Ford

IN THE UNITED STATES DISTRICT COURT FOR
THE SOUTHERN DISTRICT OF TEXAS
HOUSTON DIVISION

United States Courts
Southern District of Texas
FILED

MAY 6 2018

David J. Bradley, Clerk of Court

KEITH COLE,etal.,
Plaintiff.
v.
BRYAN COLLIER,etal.,
Defendants.

SUB-CLASS PLAINTIFF'S ADVISORY TO THE COURT
AND OBJECTIONS TO THE PROPOSED SETTLEMENT
REGARDING THE PACK HEAT

Less than two percent of the Class knows what the complete Proposed Settlement's stipulations and conditions are. The Class was misinformed that the Class Attorneys were going to come and allow everyone to personally agree or disagree with the stipulations, conditions, and sign a roster. This did not happen! The Class Attorneys on April 24, 2018 all class members were called to the gym and informed of only part of the conditions, mainly the OPT-OFF condition. Noone was informed that if it being dismissed with prejudice, were not happy with the stipulation of not being under AC protection if you are paroled and returned for what ever reason. TDC has a high rate of recidivism, no clause to protect all class members from being retaliated against (which is already being done).

I and all other class members who were assigned in the unit craftshop for years have been removed under questionable reasons.

Class Members feel betrayed by the Class Attorneys and feel that they have been played out.

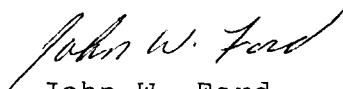

TDC never upholds any agreements it has with any class action lawsuit. They still have not settled claims for broken or damaged property even though they are the ones who broke or damaged it.

They are coming in and taking the temps inside the supply vents instead of in the distance from the supply .

They are using retaliation and harrassment to cause offenders to become so frustrated that they will OPT-OFF.

Again as restated. I pray that you will reject this proposed settlement, come and talk to some of the class members.

Respectfully submitted on May 2, 2018

John W. Ford
